From President's Desk

Dear Friends,

At the outset I extend the warmest greetings to all of you and wish a very happy, healthy and prosperous future for all office bearers and members of IMMA Council, members of all Committees of different branches, all members of Indian Mine Managers Association, Mine Managers and their fraternity in Mining Industry.

I want to inform all members of IMMA that our Association had completed 100 years in 2023 after its formation in 1923. On the occasion of its centenary year we held National Seminar in January 2023 in Dhanbad jointly with BCCL and International Seminar in Kolkata in December 2023 with support from CIL. His excellency Sri Ramesh Bais, Governor of Jharkhand was the chief Guest during the National Seminar in January 2023 and Prof. (Dr) A.K. Mishra, Director, CSIR CIMFR, Dhanbad was the Guest of Honour. Similarly Sri N. C. Jha, former chairman of CIL was the chief Guest during the International seminar in Kolkata and Sri P. M. Prasad, CMD, CIL was the Guest of Honour. A large number of delegates, Planners, scientists and engineers from Mining industry, R&D organisations, entrepreneurs, Policy makers and Faculties from academic institutions attended both a seminar Again we held the National Seminar on 17th and 18th January, 2026 in Dhanbad with BCCL as the chief sponsor on Mining Industry : challenges and opportunities (MICO 2026) 14 number of Papers were presented during the two days seminar by learned scholars from IIT ISM, Dhanbad, CIMFR, DGMS and field experts. Prof. (Dr.) Sukumar Mishra, Director IIT(ISM) Dhanbad was the Chief Guest and Sri Sanjeev Kumar Singh, CMD, Hindustan Copper was the guest of Honour during the inaugural session.

The recommendations made by the expert committee based on the papers presented during all the three seminars were sent to CIL Corporate office, different subsidiaries of CIL, SCCL,

TISCO, SAIL, NTPC and other corporates engaged in coal Mining for their perusal and implementation.

Among the Branches, Nagpur Branch is holding regular activities and National Semisair. Ranigunj, Bilaspur and Jharia Branch are also holding regular activities. We have to motivate the committees of Ranchi, Singaruli and MCL Branches to initiate different activities such as regular meetings, paper presentation, picknick and cultural activities to involve more and more members in the Various activities of the Branch.

Our country is rapidly progressing on the path of development and during the last many years the GDP growth is more than 7%, and one of the highest among the developing nations and much more than the developed nations.

The Captive and commercial coal Blocks had achieved excellent production of 210.46 MT Coal during 2025-26, 10.22% more than the production during last year. Similarly they despatched 204.61 MT coal and achieved 7.35% Growth than last year.

Coal India Ltd. could not achieve its target of coal Production during 2025-26 as against the target of 875 M.T. it could achieve 768.11 MT only because of heavy rain for a long spell Except NCL no subsidiary could achieve its annual target of 2025-26.

India remains overwhelmingly dependent on coal for its energy needs. In financial year 2024-25, Cool accounted for about 79% of total primary energy generation.

As the demand of coal is likely to increase in future by a large magnitude, Coal India, SCCL and Private sector mines have to adopt mass production Technology in under ground as well as open cast mines. CIL, CIMFR and IITS and other Technical colleges have to spend alot on R and D to find ways and means to eliminate blasting in OCMS and u/g mines, to reduce production of dust to improve Environmental condition which is causing health problems not only to those who are working in the mines but also to those who are living in the villages in and around the mines.

The management of coal Mines as well as Metal mines have to do a lot of home work to achieve zero harm potential in the mines which yet seem to be a distant possibility if we look at the record of past several years.

As we all know that IMMA has a vast pool of highly experienced Mining Engineers / Mine Managers the Management of CIL and Private sector organisation may take the help of expertise of these Mine Managers/Mining Engineers to improve the production of quality coal, Environmental condition and to achieve the Zero Accident Potential.

With best wishes to you and your families.

Jai Hind!

- K. N. Singh

General Secretary of IMMA to be presented on in the Annual General Meeting (AGM) on 28.04.2028 at Bastacolla Officers Club, BCCL

Presented by :
RK Sharma, Honorary General Secretary

Respected Members,

I have the honour to present the Annual Report of the activities of your Association for the years **2023–24**, **2024–25**, and **2025–26**.

During this period, the Association undertook several initiatives to keep pace with developments in the mining industry.

Major Events and Seminars

A **National Centenary Seminar on “Mining Industry: Challenges & Opportunities”** was organized at Community Hall, Koyla Nagar, Dhanbad, on **20th–21st January 2023**, jointly by IMMA and BCCL, marking **100 years of IMMA** and **50 years of BCCL**. The Honourable Governor of Jharkhand, **Shri Ramesh Bais**, graced the occasion as Chief Guest. Delegates from across the country participated, and eminent academicians, scientists, and field executives presented insightful papers on coal, coal washeries, and metal mining.

In the same year, an **International Seminar on “Underground Mining: Augmentation, New Initiatives & Groundbreakings (UMANG 2023)”** was successfully organized jointly by IMMA and CIL at Coal Bhawan, New Town, Kolkata, in December 2023, commemorating IMMA's centenary year.

More recently, a **National Seminar on “Mining Industry: Challenges and Opportunities – 2026”** was held at Dhanbad on **17th–18th January 2026**. The recommendations of this seminar are attached to this booklet.

Meetings and Representation

During the period, several meetings were held with the Chairman, CIL; Director (Technical), CIL; and CMDs of Coal India subsidiaries to address the grievances of Mine Managers, including pending promotions. Some issues were resolved during this period.

Branch Activities

- 1. Jharia Branch** was reorganized in 2025 with:
 - o Chairman: Shri A.K. Sinha, GM, BCCL
 - o Secretary: Shri S.K. Singh, GM
 - o Treasurer: Shri Kishore Yadav

The branch is now actively conducting regular meetings across BCCL areas.

2. Sambalpur Chapter was revived in 2024 after a long gap. Office bearers include:

- o Chairman: Shri Sanjeev Agrawal, GM (HQ), MCL
- o Vice Chairmen: Shri Rajesh Sharma and Shri Diwakar Majhi
- o Secretary: Shri Ashok Kumar Ojha

The chapter has opened a bank account and initiated a membership drive.

- 3. Kolkata Chapter** was formed in 2023 under the Chairmanship of Shri P. R. Prasad (Advisor, Coal India) and successfully organized an international seminar.
- 4. Nagpur Branch** remained highly active, regularly conducting seminars and meetings.
- 5. Bilaspur Chapter** was established in 2023 under the Chairmanship of Shri Ramesh Kumar Singh (GM, SECL HQ). The chapter organized “HAM – 21 Days (Harit Mining)” starting from 22nd January 2025 at SECL HQ, Bilaspur.
- 6. Singrauli, Ranchi, and Raniganj Chapters** require reactivation. They are requested to resume activities and submit regular reports.

Accounts

The audited accounts for **2024–25** are attached for your kind perusal.

It is noted with concern that several branches have not submitted their accounts for many years. All branches are requested to submit their financial statements to the Head Office. Due to this, the Head Office accounts do not fully reflect the income, expenditure, assets, and liabilities of the branches, and this matter has remained pending for a long time.

Council Meetings

Regular Council meetings were held during **2023–24, 2024–25, and 2025–26**, focusing on:

- Renovation of the IMMA office and sub-leasing of vacant land
- Formation and activation of branches
- Discussion of key issues in the mining industry
- Organizing of seminars and conferences

Office bearers and Council Members for the term **2026–2029** have been unanimously elected and are presented for ratification in this AGM.

Membership Drive

A strong membership drive resulted in **177 new life members** since the last AGM.

The Association now has **1,873 life members** from coal, metal, and oil mining sectors.

Membership Fees:

- Corporate Membership: ₹50,000 per annum

- Life Membership:
 - o Rs. 3,000 (up to 50 years)
 - o Rs. 2,500 (50–60 years)
 - o Rs. 2,000 (above 60 years)

Representation

IMMA is represented in the following bodies:

- Standing Committee on Safety in Coal Mines – Shri K.N. Singh
- Coal India Safety Board – Shri R.K. Sharma
- National Dust Prevention Committee – Shri R.B. Kumar

Key Industry Issues

IMMA has actively addressed critical issues including:

- Illegal mining and its environmental impact
- Land acquisition challenges for opencast mines
- Updating land records of coal companies
- Safety audits and fencing of small opencast mines
- Status, authority, and delegation of powers to Mine Managers

Notably, IMMA highlighted concerns regarding illegal mining leading to accidents and urged the Ministry of Coal to coordinate with state governments for corrective action.

The Association also emphasized the need to empower Mine Managers under the Mines Act, 1952, and proposed their inclusion in subsidiary-level Tripartite Safety Committees.

Digital Presence

IMMA actively shares updates through its website, Facebook, and WhatsApp platforms: <https://imma.org.in/>

Amendments to Constitution

Amendments proposed by the Council were approved and adopted at the **Annual General Meeting held on 7th March 2026**. Details are annexed.

Acknowledgement

I extend sincere thanks to all Council Members, BCCL authorities, and the Office Bearers of Jharia Branch, particularly Bastacolla Area, for successfully hosting this AGM.

**Audited Balance Sheet
with
Income and Expenditure
Statements**

AUDITORS REPORT

We have examined the Balance Sheet of **INDIAN MINE MANAGER'S ASSOCIATION, SARAIHELLA, DHANBAD, JHARKHAND-826001** for the year ended 31st March 2025 and the Income & Expenditure Account of the Organization for the year ended on that date. These Financial Statement are the responsibility of the management. Our responsibility is to express an opinion on this financial statement based on our audit

We conducted our audit in accordance with auditing standard generally accepted in India. These Standard requires that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining on test basis, evidence supporting the amounts and disclosures in the financial statement. An audit also includes assessing the accounting principles used and significant estimates made by the management, as well as evaluating the overall financial statement presentation, we believe that our audit provides a reasonable basis for our opinion.

We report that:

1. There are no transactions appear to be contrary to the provisions of the act, the rules or bye laws of the organization.
2. We have verified the cash & Bank balance on production of certificate.
3. We have obtained all the information and explanations, which is the best of our knowledge and belief were necessary for the purpose of audit.
4. In our opinion, the organization as required has kept proper books of accounts, so far as appears from our examination of those books.
5. The Balance sheet & Income & expenditure account are in agreement with the books of accounts.
6. At the time of closing of accounts, confirmation of significant balances lying with others should be obtained and preserved.
7. Accounts submitted for audit should have significant accounting policies adopted through notes to accounts.
8. The accounts should have been classified and described in accordance with recognized accounting policies and practices and relevant statutory requirements.

National Seminar
“MINING INDUSTRY; CHALLENGES and
OPPORTUNITIES" (MICO 2026)

Organised by : IMMA (Indian Mine Managers' Association)
on 17-18 January 2026

RECOMMENDATION OF TECHNICAL SESSIONS
THROUGH PANEL DISCUSSION

Coal, the backbone of India's energy security and a key input for steel and Cement industries, contributes around 2% to 2.5% to the national GDP, which is significant considering the size of the Indian economy, Furthermore, the role of responsibly sourced and efficiently produced metals and minerals have become more important than ever.

With the above hindsight and also with an endeavour to address predominant challenges and opening of opportunities in mining industry, a national seminar MICO 2026 was organised by the Indian Mine Managers' Association (IMMA)- known for its rich legacy and dedicated service to the mining fraternity since 1923. This event, duly participated by subject experts, mine managers, academicians, researchers, Inspectorates, policymakers and industry practitioners took place at Community Centre, Bhart Coking Coal Limited, Koylanagar, Dhanbad on 17-18 January 2026.

This seminar, also sponsored by BCCL, MCL, HCL TATA STEEL, HILLTOP HIRISE , KT MPL and Reval consulting etc., could delve into an exchange of cutting-edge insights, innovative approaches, emerging technologies and success narratives through the presentations and follow up discussions on 16 technical papers. The Key-takeaways of all these deliberations as well as the over-the-top discussions in the well-thought designed panel-discussion session were summarised as the key recommendations as listed below. The guiding lines, pertinent to the themes of this seminar, by the speakers in the inaugural session (on 17th Jan) - especially of Prof Sukumar Mishra, Director IIT-ISM (the Chief Guest), Dr. Satish Jha, CMD, ECL, Shri Manoj Kr Agarwal, CMD, BCCL and Shri Sanjiv Kr Singh, CMD, HCL (the Guest of Honors) and also the suggestions of the speakers in the valedictory session (on 18th Jan.) especially of Prof. Arvind K Mishra, Director, CSIF- CIMFR (the chiefGuest), Prof Dheeraj Kumar, Dy. Director, IIT-ISM and Adjunct Prof Pramod Pathak, IIT-ISM (the guest of Honors) were also included in the list.

Key Recommendations:

1. The challenges to the mining industry are environmental regulations, climate commitments, delays in permit, land acquisition, logistical bottlenecks, shortage of skilled work force and effective rehabilitation and resettlement in mining regions
2. The mining industry is undergoing a rapid transformation driven by technological innovation, sustainability imperatives, and the growing demand for greater safety, productivity and efficiency. This opens up opportunities and attracting investments in the mining sector. Favorable policies like longer lease periods, mineral auctions, unexplored mineral potentials and rapid industrial expansion are catalytic factors in these respects.

3. Global supply chain disruptions, volatility in commodity markets and emerging trade barriers pose significant Challenge for Indian mining and mineral based industries, impacting competitiveness of Indian products in international markets.
4. The opportunities to the mining industry are driven by technological advancement, digital transformation, mechanisation, automation, renewable energy integration and growing emphasis on critical minerals Further, the acquisition of mineral assets and blocks in foreign geographies offer a strategic pathway to secure long-term supplies of critical and strategic minerals, reduce import dependence and enhance India's global footprint in the mining sector.
5. Strengthening domestic capabilities in exploration, mining and value addition is essential for ensuring long-term economic resilience and self-reliance, in the way to reinforce India's aspirations under Atmanirbhar Bharat and Vikshit Bharat 2047.
6. Collaboration among industry, researchers, inspectorates, and policymakers will be pivotal in addressing challenges to the mining industry collectively and also in supporting the industry's endeavor to adopt sustainable, responsible and future-ready mining practices Collaborative approaches in every subject domains related to mining industry and mineral based industry are found to provide effective solutions.
7. Environmental and socio-economic Sustainability has emerged as a cornerstone and need focussed actions after formulating action-plans taking all stakeholder into account and after insulating outliners.
8. What we need is not more regulations and statutes, but an organization oversight should be randomized and risk based for better assured results.
9. Growth cannot come at the cost of safety, maintenance and quality. Enforcement of rules with accountability at every stage should be digitally managed and if needed interventions to be made, especially in the followings:
 - Automation in washery, especially in process control
 - possibility of Wet wash and Dry wash technology to be techno-commercially evaluated and suitably implemented
 - secondary washing provision for coking coal; jig type leads to lower yield; cyclone is mostly not cost effective
 - capacity utilisation is to be focussed vis -in-vis Coal supply with requisite quality, especially when different sources are fed into washery.
 - sensor based sorting technology to be explored.
 - discontinued washeries are to be awarded on Revenue Sharing basis; washed coal market is more attractive from consumer point of view .
10. **Smart Coal Quality management (SCQM) system** is an effective digital tool to address the issues of building trust, reducing disputes, providing third party audit trails digitally etc.

11. Tendering Process/Modes: Contract management manuals (CMM) along with other associated manuals should be revisited in line with relevant provisions of Department of Expenditure (DoE), GoI.

Suitable provisions may be incorporated in the CMM to address the penalty issues in respect of quality of coal.

12. Bottom ash is a good stowing material concerning its permeability at lower horizons. However, considering its low elastic modulus as compared to that of river sand the later a proven back filling materials, the former should be used with a cement mix, to be investigated comprehensively and decided scientifically at deeper horizons.
13. Underground coal mining sector faces a multitude of challenges that impede its growth. Addressing these challenges requires urgent development of a conducive ecosystem, encompassing strategic policy decisions, promotion of indigenous manufacturing, cultivation of in-house expertise and the creation of a technologically skilled workforce
14. Innovation in exploration, extraction, logistics and mine closure planning are need of the hour, especially for economic growth of mining industry aligning with environmental stewardship and social responsibility.
15. With regard to supply and marketing of coal, 3 things are very important; (a) quality: no compromise, (b) cost and (c) time ie-as early as possible. While opencasting the developed underground coal pillars (about 3000 Mt reserves blocked), a policy tweak may be necessary by which, coal conservation may be, whoever required, compromised to maintain the requisite coal quality with better marketability.(16) To fight the menace of “illegal mining”, professional honesty may be an added input to PSP (Productivity, safety and Profitability) goals of the coal company - following the saying "together we cans : nothing is impossible".
17. Technological gaps, especially in areas of underground coal gassification: clean coal technology including surface gassification of Coal; waste-to-wealth (eg:ethanol making etc), need to be suitably addressed for the benefit of mining industry
18. India is poised to become 3rd largest economy in the world. In this respect, new opportunities, for example pump-storage power plants using shafts of underground mines, Hydrogen as the new sources of energy security using mine- water etc, are to be explored following recommendation (6) as above and to be implemented for the benefit of mining industry and society at large.
19. Supplanting river sand for backfilling, the success narratives of Chinese mining industry may be technologically transferred and utilised to extract coal below built-up areas and important surface properties in Ranigunj Coalfield and Jharia Coalfield (for examples) as well as to extract coal belowground at deeper horizons (more than 300 m depth of cover).

Proposed IMMA Council (2026-2028)

Chief Patrons:

Shri Vinod P. Sinha, Ex President IMMA

Immediate Past President

Shri K. N. Singh

Patron:

Shri N. P. Chauhan

President :

R. K. Sharma, Ex CGM NCL.

Honorary General Secretary:

Shri Niraj Kumar, Advisor, BCCL

Honorary Treasures :

Shri Bikarm Kumar, Chief Manager BCCL

Joint Treasurer

Shri Sanjeev Prakash, BCCL

Secretaries:

Rajeev Tiwary, CGM SAIL

Sanjay Agrawal, GM BCCL.

Joint Secretaries:

Shri M R Srivastava, GM BCCL

Shri V K Sah, ECL

Shri Sanjay Kumar Singh, GM Safety BCCL

Shri Aditya Vishal, BCCL

Hony Auditors:

Md. Y. Ansari, Ex GM, ECL

Shri R B Kumar, Ex GM, BCCL

Hony Editors :

Shri V.K. Sinha, Ex RD, CMPDIL

Shri Satyendra K. Singh

Shri Kishor Yadav

Council Members:

1. Sri Niladri Roy, DT ECL
2. S. K. Jagnania
3. Shri R. N. Mishra
4. Shri Awadh Kishor Pandey, GM MCL
5. Shri Anjani Kumar, ED, CIL

6. Shri S. K. Gayakwad, GM BCCL
7. Shri Kumar Ranjiv, GM BCCL
8. Shri K. K. Singh, GM BCCL
9. Shri G.C. Saha, GM BCCL
10. Shri P. K. Singh, ECL
11. Shri Suresh Singh, Dhanbad
12. Shri P. K. Satia
13. Shri R. B. Upadhyay, Delhi
14. Shri Rajnish Kumar Jain, Durgapur
15. Shri Prakash Rai, GM, SECL
16. Shri S. T. Patil, GM SECL
